Dear Phil,

We are pleased to grant BatsBirdsYard a continuation of BCI's "Bat Approved" certification for your bat house designs:

- Single Cell Deluxe Bat House
- Double Cell Deluxe Club House
- Triple Cell Deluxe Nursery
- Four Cell Deluxe Apartment Complex
- Five Cell Deluxe Condo Unit

This certification is permanent unless significant changes are made to this design. Your approved designs are listed on BCI's Web site (www.batcon.org).

Please inform BCI of any changes to these designs that might require additional assessment. BCI appreciates your commitment to building quality bat houses. Please give me a call should you have any questions.

Sincerely,

Dear Friend:

Thank you for purchasing this quality bat house. This bat house, built by BatsBirdsYard, has been evaluated by Bat Conservation International. It has earned our "Bat Approved" certification, meaning the design, materials, construction and instructions have met our quality standards. Most commercially-produced bat houses are not suitable for bats, and often lack proper instructions. While there are never any guarantees, BCI-approved bat houses are likely to be used by bats when properly installed in a suitable location. Please follow the recommendations enclosed with your bat house for best results.

Providing new roosts for bats is one of the most rewarding ways that we can help wildlife. Many bats have lost their natural roosts, and by putting up this bat house, you are making a difference. You will also benefit from having fewer yard and garden pests.

Please visit www.batcon.org/bathouse for more information about bats and bat houses. Thanks again for your efforts to help bats.

Sincerely,

A handwritten signature in black ink, appearing to read "Dianne Odegard".
